

■ DELTA®-FAST'ner

The DELTA®-FAST'ner is a multistud fastener for attaching the DELTA®-MS and DELTA®-DRAIN to the foundation wall. The fastener is used with a DELTA®-NAIL or concrete nail to fasten the DELTA® Membrane in place. The DELTA®-FAST'ner is made of HDPE and is orange in color.

DELTA®-FAST'ner can substitute the DELTA®-PLUG.

Characteristics

Multistud plastic fastener for fast and simple installation with superior holding power, to prevent tear-out at fastening points during backfill.
